Assembly Guide

THE ULTIMATE WINE CUBE

Need Assistance? **800.584.0960**

Parts List: not to scale

Side Frame Piece

Long Middle Dividers

Short Middle Dividers

Top/Bottom Frame Piece

2 per cube

2 per cube

2 per cube

4 per cube

Wood Screws

Tools Required:

Screwdriver (phillips)
or cordless drill

Step 1

Begin by creating a 90 degree angle with one side frame piece and one top/bottom frame piece and securing them with three of the wood screws provided. (figure A)

Step 2

Stand the assembly upright and attach the other side frame piece to the top/bottom frame piece using the provided wood screws. (figure B)

TIP:
Figure A is easier on a carpet or rug

Step 3

Flip the assembly over and begin securing the second top/bottom frame piece. Only secure one side of the top/bottom frame piece until the end of assembly, this will make insertion of the dividers a breeze. (figure C)

Step 4

Gently lay the rack down on the floor while holding/securing the loose corner with your hands. Insert the first long middle divider into the frame so that the notches are facing upward. Insert the second long middle divider so that the middle notch interlocks with the middle notch of the other long middle divider. (figure D)

C

TIP:
Leave one
corner loose
until end

Step 5

While holding the loose corner tightly together with your hands stand the rack upright. Begin inserting the short middle dividers starting with the bottom of the rack. (figure E & F)

Insert the other two short middle dividers to the top part of the rack. (figure G & H)

Step 7

Make sure the dividers are nice and flush with the outer frame. Secure the loose corner of the frame using three of the provided wood screws. (figure I)

You're Finished

Wine Cubes expand with your collection. Fill an entire wall or wine cellar with Wine Cubes!
Cheers and thank you for your purchase.
